Saturday Review. During the Reign of Terror in France a spirit very like that of the worst period of the Roman Empire was evoked, and it has been observed that in both cases the grossest inhu manity was sometimes found united with affection for animals—that is, for pet animals. Fournier was devoted to a squirrel, Couthon to his spaniel, and Marat kept doves. But it may well be questioned whether these particular affections indicated any general temper of mercy towards animals. al temper of mercy towards animals more than towards markind. > Got Their First Choice. Jackson Whig.

Gen. Bate was the first choice of the Nashville Banner, Lebanon Her-ald and Gallatin Examiner for Gov-ernor, and after the Democratic con-vention nominated him these papers were first to desert their friend. This action is in striking centrast with the famous examples of friendship recorded of Jonathan and David and Damon and Pythias, and smacks stronger of the Garfield and Rosecrans affair.

A street urchin was captured the other day, in New York, with a basket half full of old cigar stumps, which he had picked out of the gutters. To a police court justice he said that he sold them for ten cents a pound to a maker of cigarettes, and that a good many boys and girls were engaged in this industry. Yet even this explanation, and a knowledge of how bad some cigars are, will not account for the vile ador of the average cigarette smoked on the platforms of street cars.

The Verdict in the Malley Case. New York Herald.

The acquittal of the Malley boys and Blanche Douglass by the jury yesterday, within an hour after retir ing, will not surprise those conversant with the testimony given in the case. the probabilities. The State's evidence was entirely circumstantial, and while against the accused, it was plainly insufficient to fix their guilt beyond a reasonable doubt in the minds of twelve jurors. All the facts brought out on the trial, the arguments of counsel, the charge of the Judge and the verdict of the jury, leave the cause and the manner of Jennie Cramer's death a mystery almost as profound as it was that summer morning when her lifeless body was found on the shore. Whether she was drowned or died by poison, whether she was murdered or destroyed herself, are still left to speculation. While the trial has not cleared up this mystery it has shown that prior to her death she was the victim of shameful treatment at the hands of those charged with her murder; and had they been arraigned by the State for the lesser instead of the greater crime the wrong done the unfortunate girl might not go unpunished. But it is not yet too late to proceed against the offenders on the minor charge.
